

# Daily Check-In

---

[link](#)

7/2

- ☒ create website on GitHub
- ☒ practice Markdown syntax
- ☒ listen to one algorithm class
- ☐ solve 3 Leetcode problem

7/3

- ☒ add basic layout on the main page
- ☒ edit the markdown of leetcode page
- ☐ review 3 leetcode old problem
- ☒ solve 2 new leetcode problem
- ☒ finish the algorithm class

7/4

- ☒ review 3 leetcode old problem

7/5

- ☒ solve 3 leetcode problem
- ☒ finish bit section
- ☐ start project 1

7/6

- ☒ solve 3 leetcode problem
- ☒ start project 1

7/7

- ☐ solve 3 leetcode problem
- ☒ finish 1 algorithm class

7/8

- ☒ finish recursion 2 class
- ☒ solve 3 problem

7/9

- ☒ start dp 1 class
- ☒ solve 3 problem

7/10

- ☒ start OOD Parking Lot
- ☒ finish OOD 2

7/11

- ☒ finish Parking Lot design
- ☒ start DP 1
- ☐ solve 2 problem

7/12

- ☒ finish project html class
- ☒ finish DP 1

7/13

- ☒ solve 3 new problem
- ☒ finish OOD 3 factory pattern
- ☒ start DP 2 class

7/14

- ☒ solve 3 new problem
- ☒ finish project class 5
- ☒ finish DP 2 class

7/15

- ☒ solve 3 new problem
- ☒ start system design class 1
